hi matt

with reference to our conversation the other day
would it be possible to obtain a 12 month extension to the licence of my vauxhall vivaro
as in the current financial climate it would be hard to justify the monies to replace this
vehicle

it has no problems with corrosion and is in good condition having recently had a new
engine and gearbox fitted and having never had any major faults during tests
i hope you will look favorably on my request and look forward to your reply in the near
future.

also i wonder if it would fall into the category of built for purpose as it is a factory built 9
seater?

thanks
