

Application No. TPO/2018/0042 - Council's own application
to prune protected trees at St Chad's Church, The Green, Bagnall

Schedule of Proposed Work and Reasons

Tree Number (see tree position plan)	Species	Proposed Work	Reasons for proposed work
T3	Lime	Crown lift to remove lower secondary branches to approx. 6m above ground level; thin congested lower crown by 20-30%	To maintain over-ground clearance, and to improve the amenity/appearance of the tree
T5	Horse Chestnut	Crown lift to remove lower secondary branches to approx. 6m above ground level	To maintain over-ground clearance, and increase clearance from the adjacent house and utility wires, and to improve the amenity/appearance of the tree
T6	Sycamore	Crown lift over adjacent private property to provide minimum 3m clearance from the adjacent house. Crown clean to remove dead wood	To maintain over-ground clearance, and increase clearance from the adjacent house and utility wires, and to improve the amenity/appearance of the tree
T6A	Holly (sapling tree)	Crown lift to remove small lateral branches from direct contact with adjacent garage	To address direct contact with garage roof and avoid potential future damage
T7	Sycamore	Crown lift over adjacent private property to remove lower 4 secondary branches above garage roof	To increase clearance from the adjacent garage roof
T8	Sycamore	Crown lift to remove lower secondary branches to approx. 6m above ground level	To maintain over-ground clearance
T10	Sycamore	Crown lift to remove lower secondary branches to approx. 6m above ground level	To increase clearance from "angel" monument and avoid potential future damage
T13	Horse Chestnut	Crown lift to remove lower secondary branches to approx. 6m above ground level. Reduce crown on south side, to remove the lower secondary branch systems over the church roof	To increase clearance from church roof and avoid potential future damage, and to improve the amenity/appearance of the tree
T14	Sycamore	Reduce crown on south side, to remove the lowest secondary branch system over the church roof	To increase clearance from church roof and avoid potential future damage
T16	Sycamore	Crown lift to remove lower secondary branches to approx. 6m above ground level. Reduce crown on south side, to remove the 2 secondary branch systems growing towards/over the church roof	To increase clearance from church roof and avoid potential future damage
T18	Lime	Thin congested lower crown by 20-30%. Reduce crown on east side, to remove 4 spindly secondary branches growing towards the church tower	To increase clearance from church, and to improve the amenity/appearance of the tree
T23	Lime	Crown lift to remove lower secondary branches and epicormic shoots to approx. 6m above ground level	To maintain over-ground clearance, and to improve the amenity/appearance of the tree
