Appendix Attached:

Appendix A - Medium Term Financial Plan 2020/21 to 2023/24

1. Reason for the Report

- 1.1 This report presents the Council's updated Medium Term Financial Plan (MTFP). The MTFP presents the Council's priorities in the context of the likely resources available, providing a financial context to future decision-making.

2. Recommendations

- 2.1 That the Cabinet approve the updated Medium Term Financial Plan (Appendix A).

3. Executive Summary

- 3.1 The medium term financial planning process provides the Council with the opportunity to plan its delivery of public services in accordance with local priorities.
- 3.2 The Medium Term Financial Plan (MTFP) is updated in accordance with the budget cycle. This version of the MTFP presents the Council's finances over a four-year period, namely 2020/21 to 2023/24. It sets the context for the preparation of the 2020/21 budget which will be presented for approval by the Council in February 2020.
- 3.3 The Plan provides:
- Details of local spending influences in the context of the new Corporate Plan

- A focus on the transformation programme and the consequential financial implications, including the capital programme and efficiency & rationalisation plan
 - Updated inflation and interest assumptions using the latest forecasts and the impact of any budgetary demand
 - Updated income assumptions based on latest information
 - An update on any national issues that will impact on the Council's financial position
- 3.3 The previous version of the MTFP was agreed by the Council in February 2019 when setting the budget for the current financial year. The Plan identified a small surplus position of £29,370 by the end of 2022/23. An assumed overall contribution of £325,810 into reserves was made over the life of the MTFP.
- 3.4 The overall financial assumptions have been updated and a new financial year (2023/24) has been added to the plan, which now forecasts a surplus of £70,220 by 2023/24. Taking this into account as well as the projections within the Quarter Two report – currently results in an overall slightly reduced contribution to reserves over the life of the plan of £268,980.
- 3.5 This is primarily due to assumptions in respect of Council Tax increases - with the plan now assuming a maximum 2% increase as opposed to the 2.9% increase that was assumed at February 2019 (in line with recent Government consultation)
- 3.6 However, this is subject to completion of the current efficiency programme and any changes to financial assumptions going forward. Current progression against the efficiency programme is positive with the 2019/20 target exceeded due to significant savings achieved from the Leisure and Insurance Contract. A review of the remaining efficiency programme will take place in preparation for the MTFP to be presented in February.
- 3.7 Whilst this is a financially sound position, there are a number of risks to this. Further work is taking place to more accurately understand costings/income levels; for example, around capital programme projects, understanding the increased budget requirement in regard to the provision of facilities management and income forecasts in relation to business rates retention income - which is extremely volatile.
- 3.8 There is also a risk around the potential impact of the Government's fair funding and spending review, as well as the 75% business rates retention system and any further changes to the New Homes Bonus scheme.
- 3.9 The capital programme has been updated to reflect the 2018/19 outturn position, projections for 2019/20 and any re-profiling required over the life of the MTFP. Further work of estimating the costs of the capital programme is being undertaken, with any financial consequences feeding into the February 2020 MTFP.
- 3.10 As previously stated, this version of the MTFP sets the context for the development of the 2019/20 Budget. Members will receive a further update of

the MTFP when considering the final budget proposals in February 2020. The following actions will need to be completed to ensure that these proposals are robust:

- Complete review of the Council's transformation programme (including capital programme and efficiency programme) and produce revised forecasts as required
- Development of detailed budget plans for 2021/22
- Development of detailed proposals for fees and charges increases
- Complete review of reserves and balances
- Continue to monitor the ongoing issues arising from the Autumn budget, retention of business rates and the associated financial implications for the Council, as well as any changes emerging from the fair funding / spending review.
