#### **Appendices Attached:**

#### **Appendix A: Annual Report 2019/20**

### **1. Reason for the Report**

- 1.1 The purpose of this report is to present the Council's Annual Report for 2019/20, which compares High Peak's performance and costs with councils in the East Midlands region and nationally; and highlights further action where needed.

### **2. Recommendation**

- 2.1 It is recommended that the Executive notes the findings of the benchmarking exercises and the small refocus of the Corporate Plan suggested for the following 12 months.

### **3. Executive Summary**

- 3.1 The Annual Report establishes the context for the Council in planning its performance delivery. This includes both the financial backdrop against which the council must deliver its services but also the local place context of the High Peak and how it compares against a range of socio-demographic measures.
- 3.2 The report looks back over the Council's achievements in 2019/20 and uses national benchmarking data (2018/19) to assess value for money.
- 3.3 The analysis is built around the Corporate Plan priorities and provides a small refocus for the next 12 months

**4. How this report links to Corporate Priorities**

4.1 The Annual Report is built around the priorities contained within the Corporate Plan and therefore links into all four main aims and the supporting objectives.

**5. Alternative Options**

5.1 This report is for information with no decision required of the Committee.

## 6. Detail

6.1 The purpose of an Annual Report is to look back and take stock of the progress and achievements made against the Council's stated objectives and to use this intelligence to understand what still needs to be done and what new challenges lie ahead.

6.2 The Annual Report does this by:

- looking at performance against targets;
- analysing performance and costs against national and regional comparisons;
- presenting a place profile for the High Peak, such as health factors, deprivation levels, economic indicators and access to housing; and
- outlining the financial challenges facing the authority over the course of its Medium Term Financial Plan.

6.3 The highlights from the place profile are as follows:

- Over 30% of the area is classed as rural
- Ageing population, 65+ years expected to become the largest resident group possibly in 20 years' time
- Higher than average levels of unqualified residents
- Health outcomes – issues with cancer mortality rates, under 18's conception rates, and road accidents
- Indices of Multiple Deprivation – low overall but geographic and thematic pockets
- Employment – sharp drop in High Peak
- Covid Recovery – Derbyshire 4th highest economic vulnerability out of 26 areas

6.4 The benchmarking issues are highlighted below along with the relevant actions that are in progress:
