Dear Sandra

We have not recorded any specific dates as this appears to be the normal operating procedure for the club. However, we can confirm that it is a common occurrence that children are present in the car park whilst shooters are walking past with guns unsleeved. The shooters have to pass through the car park, which is densely populated with cars particularly on Saturdays when more families attend the club, to reach the paths to the shooting stands.

Best Regards

Joy & Simon Gulliford
