AES Contract Management

Assurance Level

Assurance: SATISFACTORY

It is our opinion that controls currently in place within the system provide satisfactory assurance that risks material to the achievement of the systems objectives outlined in the Scope and Objectives section of this report are adequately managed.

Key Findings

Key Issues	Strengths and Improvements
<ul style="list-style-type: none"> Periodic checks should be undertaken by the contract manager to confirm compliance with the contract terms and conditions, with such checks being recorded in an inspection report, signed by both parties and where necessary remedial action agreed. Sample checking of the performance data submitted by AES should be undertaken to ensure it is supported by documentary evidence (e.g. system reports) and accurately calculated. This should include development of the 'contract compliance checklist' to include details of checks undertaken and documentary evidence required. 	<ul style="list-style-type: none"> Payments made to AES for the provision of services are appropriately authorised and checked to ensure they are in accordance with the agreed terms and conditions.
