### **Information in support of your application:**

I am joint director and founder, with my husband, of CJK Packaging Ltd at Chinley. We have grown the Company from nothing, to employing 20 local people and exporting all over the world. We have purchased the industrial estate where we are based and totally refurbished it. When jobs are created the general rule of thumb is that the knock-on effect means that for each new job, 2 more are created elsewhere, half of them locally. We are no exception to this rule.

I would like to put myself forward as Chair, as I believe I have a understanding of the requirements to make a business successful.

I would like us, the Council, to be more proactive in finding out the needs of businesses to succeed and expand. I think we can do this by actively engaging with businesses showing them that the Council is encouraging employment and expansion, and that we really are "Open for Business".

In helping provide more employment in the area we also get more revenue for the council.
