The Planning Officer referred to the Late Representations report and highlighted the requirement to condition the fencing material, footpaths and height and coverage of CCTV. The developer had also indicated to the Officer that the standoff distance could be increased by 25metres at the south-east boundary nearest to the dwellings. During the meeting the applicant suggested this distance could be increased further.

The Committee debated the level of electricity that would be generated by the proposed solar farm, effect on local landscape character, agricultural land quality, consultation with the local community, cumulative impact and the proximity of the residential dwellings to the site.

  - Intrusive and oppressive visual intrusion on dwellings at Highfields Farm
  - Uncertainties as to noise impacts
3. That in the event of any changes being needed to the wording of the Committee's decision (such as to delete, vary or add conditions / informatives / planning obligations or reasons for approval / refusal) prior to the decision being issued, the Head of Development Services be given delegated authority to do so in consultation with the Chair of the Planning Applications Committee, provided that the changes do not exceed the substantive nature of the Committee's decision.
