7. Detail

- 7.1 The Council ensures that it undertakes a deliberate and systematic identification of the key risks that might prevent, degrade, delay or enhance the achievement of its objectives and priorities. The Council's Risk Management Strategy sets out the process for undertaking this on an ongoing basis.
- 7.2 In addition to the identification of risks, managers also have to quantify them in terms of likelihood and potential impact. The risks are then recorded in the Council's Risk Registers. These have three aspects – strategic, operational and project risks.
- 7.3 Under the Risk Management Strategy, the Council's 'risk tolerance' threshold is set along the border between 'medium' and 'high' rated residual risks. The Strategy stipulates that mitigating actions should be identified for all risks that exceed this threshold.
- 7.4 The Council's Strategic, Operational and Project Risk Registers are reviewed on a quarterly basis and reported into the Corporate Risk Management Group and the Audit and Regulatory Committee on an exception basis. The appendices provide details of all risks that have been rated as 'high' or above, and therefore beyond the Council's risk tolerance threshold.

8. Strategic Risks

- 8.1 The March 2023 review of the Strategic Risk Register reveals that the Council has identified and assessed 19 Strategic Risks, of which 47% are rated as 'high' and therefore above the Council's risk tolerance threshold.
- 8.2 There continues to be four opportunity risks within the register – housing growth, business growth, commercialism (trading) and effective contractor relations, which the alliance is working to reap the benefits from.
- 8.3 The Council's risk profile is displayed below.

Residual Risk Rating	High Peak Risks	Alliance Risks	Total Risks
Critical	-	-	-
High	1	8	9
Medium	1	8	9
Low	-	1	1
Total Risks			19

Matrix 1: Risk Threats

		Impact				
		1	2	3	4	5
Likelihood	5					
	4				- MTFP - World Events	
	3				- IT Security - Employees - Env Regs - Social Housing	- Contract Mngt - Investment into assets
	2					- Safeguarding duty
	1					

Matrix 2: Risk Opportunities

		Impact				
		5	4	3	2	1
Likelihood	5					
	4			- Effective contractor relations		
	3	- Housing & Business Growth				
	2					
	1					

8.4 The nine high rated risks are mapped on Matrix 1 above and the three opportunity risks are shown on Matrix 2. The categories of risk now recorded on the strategic risk register cover a broader range of risk types than before. The graphic below illustrates the risk profile across both threats and opportunities and also across our Corporate Plan aims.

9. Operational Risks

9.1 The March 2023 analysis of the Operational Risk Registers reveals that the Council has identified and assessed 47 operational risks in total, of which 12 are rated as 'high' and therefore above the Council's risk tolerance threshold. Changes made to the risk registers since the last report are listed below:

- ❖ Assets – a new risk has been added around mould in properties causing potential health issues
- ❖ Carelink- a new risk has been added around the energy crisis and the possibility of power cuts
- ❖ Revenues and Benefits – the risk around loss in collection has been closed: this is no longer considered a risk.

9.2 The 12 risks falling within the 'high' category are listed in full at Appendix B. A full breakdown of the Council's operational risk profile is given below:

Residual Risk Rating	High Peak Risks	Alliance Risks	Total Risks
Critical	-	-	-
High	1	11	12
Medium	5	13	18
Low	6	11	17
Total Risks			47

9.3 The chart below shows the greatest number of operational risks sit within Assets, closely followed by Carelink. An analysis of the alignment of risk to our corporate objectives shows that most operational risks relate to the use of resources in order to achieve value for money.

10. Project Risks

10.1 The alliance's project management methodology requires all projects to present an assessment of associated risks at Stage Two of the decision-making process for project approval.

10.2 A number of projects have been completed since the last report. Existing project risk registers are detailed below :

- Accelerated housing delivery programme
- Glossop Halls
- HAZ Scheme Buxton
- Local Plan Review
- Procurement Workflow
- Buxton Future High Street Fund .
- Developer Contributions
- Simmondley & Jodrell Road

10.3 The profile of project risk threats overall is bulleted below:

- 0% Critical
- 24% High – 12 risks
- 42% Medium – 21 risks
- 34% Low – 17 risks

10.4 In addition, a total of 14 opportunity risks have been identified across 6 of the above projects, and all above tolerance positive risks are reported in Appendix D.
