7. Detail

- 7.1 The Housing Act 1996 (as amended) places a statutory duty on local authorities to undertake a review of homelessness, and use those findings to develop a Homelessness and Rough Sleeping Strategy. The review identifies local trends and challenges, to inform priorities and actions within the strategy, which sets out a proactive partnership approach to address and prevent homelessness.
- 7.2 The Homelessness Reduction Act (2017) is now fully embedded. The Government are committed to ending rough sleeping by 2024 and proposals within the strategy are in keeping with the positive spirit of the homelessness legislation and the ambition of the Government's target.
- 7.3 The strategy makes reference to the Domestic Abuse Act (2021) and contained within the list of priority actions are proposals to continue work with Staffordshire County Council to increase support and access to accommodation for abuse victims.
- 7.4 The draft strategy aims are to:
- Respond to homelessness by ensuring individuals have prompt access to housing advice, homes and tailored support.
 - Replicate best practice and innovation in response to homelessness and prevention.
 - Commission and develop services and improve collaboration wherever possible.
 - Prevent homelessness across the whole system by intervening earlier and developing individual solutions.
 - Increase the range of affordable housing options available.
 - Develop a better understanding of the causes of homelessness through

improved data capture.

- 7.5 The strategy is ambitious, and the vision is ‘working collaboratively to prevent and reduce homelessness’. The Strategy proposes to meet the vision and aims through the delivery of four suggested priorities:
1. Create and develop Robust Partnerships to address homelessness and tenancy sustainment
 2. Prevent and Respond to Homelessness through Early Intervention and Personalised Solutions
 3. End Rough Sleeping and Repeat Homelessness
 4. Develop Sustainable Supported and Settled Housing Solutions
- 7.6 With the approval of the Panel, consultation will be undertaken for a period of eight weeks. The review, strategy, and consultation questions (Appendix C) will be shared with a wide range of partner stakeholders. Following consultation, responses shall be collated, and amended documents shared with the Panel for consideration and approval.
- 7.7 The strategy would be delivered and monitored through an action plan, which will expand on the commitments and actions set out in the strategy. The plan would be reviewed annually so that it is responsive to emerging needs, alongside policy and legislative changes. This will be led by the Council, but the involvement of our partners is important, recognising that resolving homelessness goes beyond the provision of housing alone and we need to work closely with our partners to ensure we have the expertise, services, and resources to improve outcomes and deliver the strategy.
- 7.8 Key performance monitoring information relating to homelessness and temporary accommodation provision is provided monthly and feeds into the Council’s Corporate Plan.
